About Us

Rof Architects is an engineering company specialized in providing integrated solutions in the fields of architectural design, interior design, and project management. The company was established with a clear vision to deliver innovative designs that combine beauty, functionality, and sustainability, while meeting our clients' needs with the highest standards of quality and precision.

Our Mision[⁂]

Providing comprehensive engineering services that ensure quality, innovation, and commitment to make a positive impact on the lives of our clients and communities.

Our Vision[®]

To be the first choice in the field of engineering consultancy and design in the Kingdom and the region, by providing exceptional architectural solutions that enhance lifestyles and achieve sustainability.

Our Story

Why Rof

- Integrated engineering solutions from design to delivery.
- A multidisciplinary team with local and international expertise.
- Innovative designs that balance aesthetics and functionality.
- Strict commitment to quality and deadlines.
- Utilizing the latest engineering technologies (BIM, 3D Modeling).

Our Services

ROF ARCHITECTS is an architectural firm dedicated to delivering innovative and sustainable designs across all scales, from urban developments to interiors. Guided by a clear vision and a team of skilled professionals, we create inspiring spaces that place client needs at the center.

Architectural Design

Architectural design is an integrated process that unites logic, art, and science to shape spaces aligned with human lifestyles. It goes beyond visual form to consider how environments support living, working, recreation, and recovery, while delivering comfort, functionality, and beauty in harmony.

Interior Design

Interior design is an integrated process that combines creativity, functionality, and technical precision to shape interior spaces that align with human needs. It goes beyond decoration to focus on how environments support comfort, safety, and lifestyle, while blending aesthetic character with practical usability to create harmonious and distinctive spaces.

Project Management & Supervision

Ensuring the contractor's adherence to the design plans and verifying their implementation according to technical specifications, general engineering standards, and the specific technical requirements of the project, to ensure that the design is realized on the ground as planned, with the highest quality standards.

Urban Design

Urban design is a holistic process that organizes and shapes cities and communities to balance functionality, sustainability, and human needs. It integrates architecture, landscape, and infrastructure to create vibrant spaces that support living, working, and interaction, while fostering identity, inclusivity, and long-term livability.

Selected Projects

With a passion for crafting spaces that inspire, we take pride in our commitment to delivering visionary solutions tailored to your unique needs. Established with a vision to redefine the architectural landscape, our team of dedicated professionals brings a wealth of expertise and creativity to every project

Description

This private guest area, nestled within a villa and spanning approximately 500 sqm, blends timeless classic touches with modern serenity. The interior design features earthy tones and natural marble finishes, creating a warm and refined ambiance without excess.

The layout offers a balance between comfort and function, including a cozy living space, a formal sitting area, a billiard/game zone, and a thoughtfully designed kitchen tailored for both daily use and hosting. Intricate decorative panels, mirrored surfaces, and crystal lighting fixtures elevate the space, adding visual depth and subtle richness while maintaining a calm, welcoming atmosphere.

Qasr Al-Diyafah – Guest Reception

 Riyadh -Al Qassim

Description

This project is a private residential project located in the Qassim region, covering approximately 1,000 square meters. The design follows a classical style with precise architectural and decorative detailing.

Design elements include wall-mounted columns, traditional panel moldings, and crystal chandeliers, paired with a color palette of beige and royal blue.

Furniture and accessories were selected to complement the classical aesthetic without visual overload, giving each space a clear identity and a balanced atmosphere.

 Interior Design

Location

 Riyadh

Description

Located in the Al-Rimal district in Riyadh, Al-Rimal Palace is a private leisure residence spanning approximately 1,000 sqm. The design embodies a refined neoclassical aesthetic, blending classic elegance with contemporary touches through a soothing palette of beige and grey, accented by deep royal blue velvet.

Carefully placed crystal lighting, ornate wall paneling, and detailed ceiling work lend the space a rich visual depth and sensory warmth. The palace features a spacious majlis tailored for hospitality and a formal dining area that reflects attention to balance, symmetry, and thoughtful styling.

This project represents our approach to interior design as a personal and timeless statement—where comfort, identity, and beauty seamlessly coexist.

Description

Covering 250 sqm in Riyadh, this interior design project for Sakef Holding adopts a contemporary approach that combines clarity with bold design gestures. The office space was crafted with a strong visual identity, built around clean lines, warm materials, and refined metallic details that reflect the executive nature of the company.

One of the key design features is the vertical gold mesh divider—a striking yet transparent element that defines space without creating barriers.

The layout includes a curved reception area, open workspaces, executive offices, and a boardroom—all designed to support a fluid workflow while visually expressing the character of the Sakef brand.

A photograph of a modern office interior, specifically a conference room. In the foreground, several black leather office chairs are arranged around a dark conference table. The background features a large wall with a vertical wood-grain panel and a large abstract artwork. The text "Telad Real Estate – Administrative Offices" is overlaid on the left side of the image.

Telad Real Estate – Administrative Offices

 Interior Design

Location

 Riyadh

Description

Located in Riyadh, this project features the interior design of Telad Real Estate's administrative offices, covering approximately 200 sqm. The space embraces a contemporary style enriched with thoughtful details that strike a balance between functionality and visual depth.

Natural materials like marble and wood were selected to add warmth and texture, while a calm earthy palette creates a comfortable work environment aligned with the company's identity. The design includes custom-built display units for architectural models, enhanced by carefully positioned lighting to highlight forms and structure.

The layout consists of a reception area, executive offices, a meeting room, and a model showcase zone—all designed to support daily operations while delivering a cohesive and refined user experience.

Our Team

Our architectural team combines creativity and professionalism in every project. From residential to commercial designs, we work with passion to deliver exceptional architectural solutions that reflect quality and precision.

Eng. Sulaiman AlRawaf holds a degree in Civil Engineering and currently serves as the General Manager within the General Management Department. With a solid foundation in engineering and leadership, he brings valuable expertise and strategic vision to the company.

**Eng. Sulaiman bin Mohammad
AlRawaf**

Co founder and general director
